Mr. Harry F. McFarland

STAT

Dear Mr. McFarland:

The Director has asked me to respond to your letter of 5 December 1959, in which you propose a study of the mineral resources of the USSR.

Although we also are interested in this subject, the classified nature of most of our work and our time commitments prevent us from offering direct assistance to projects such as you propose. Attached is a bibliography containing some of the most informative, unclassified material on the subject. If these references are not in your local library, you can obtain them from the Library of Congress through the interlibrary loan service.

Your service record, which I am returning to you, indicates that you have completed successfully many difficult and challenging assignments. I am sure that you will be equally successful in your present one.

Sincerely,

STAT

Otto E. Guthe  
Assistant Director

Enclosures:

1. Selected Bibliography on Metals & Minerals in the USSR
